MICF: Material Inspection Control Function

Direct Material quality control (Receiving inspection, Supplier audit, problem handling etc.)
Scope: Steel sheet, Paint, Sealer, Lubricant, Fluid, Fastener

CPQA: Critical Process Quality Assurance

Supplier Critical process evaluation & Auditor certification to prevent serious problem. Scope: Welding, Heat Treatment, Rubber, Anti corrosion, Plastic, Electronic, Adhesive

FMA: Failure Mode Analysis

Part & material problem investigation for quick countermeasure and recurrence prevention

MICF CPQA FMA Good People, Good Facility, Good System
